# ABOUT A TO Z

A to Z Theatrical Supply and Service has been serving the theatre community for over half a century. In 1959 two brothers started a company out of their garage, building and repairing theatrical electrical lighting strips. As the business grew, it was expanded out of the garage and into a 6,000 square foot space in Kansas City.

Over the years, A to Z has grown and improved to better serve not just Kansas City, but clients all over the world. Current owner Alex Perry acquired the company in 2013 with a vision of working on fun and innovative projects to enhance the theatrical world. With locations in Kansas City, Wichita, and Milwaukee, we now have over 100,000 square feet of costumes, make up, theatrical supplies, props and everything else your production might need!

**Costuming:** Our costume staff has over a half century of experience between them, having worked on shows from middle school productions to Broadway. A full list of our current show packages can be found at [atoztheatrical.com](http://atoztheatrical.com). Need a custom creation? You got it. Our costume shop can design/sew/build/create something just for you.

**Props and Scenery:** We have a prop for nearly every scene of any show! And if we don't? We can make it. Our scenic team has decades of experience to help you develop and execute ideas, from consultation and design through construction and installation. We will help to transform your artistic vision into a reality, so you can get the most out of your scenery for the budget you have available.

Each pricing tier is priced per look based on a 1-week minimum rental (Monday to Monday). A second week is 50% of the original weekly cost. From the third week on, each additional week is 25% of the original weekly rental cost.

Costume Tier:	Week 1 Price:	Week 2 Price:	Add Week(s) Price:

# COSTUME MEASUREMENT INSTRUCTIONS

## Before measuring:

1. Empty all pockets.
2. Remove bulky clothing items for better accuracy.
3. Wear the same or similar undergarments you will wear in costume (measurements vary greatly in sports bras vs. push up bras, for example).

## When measuring:

1. DO NOT TAKE YOUR OWN MEASUREMENTS; they will be inaccurate if you take them yourself.
2. DO NOT GUESS YOUR MEASUREMENTS; accurate measurements are a necessity.
3. Measurements should be taken in inches (metric measurements will not be accepted).
4. Fill out the measurement form legibly, or download the PDF fillable form to your computer.
5. Respect personal boundaries; allow the actor to run the measuring tape between their legs or to hold the measuring tape at their own inseam.

**A. Circumference of Head:** Measure around the head just above the ears and across the forehead. If your hair is significantly voluminous, make a note under Additional Information. (typically 20" to 30")

**B. Base of Neck:** Measure the circumference at the base of the neck. (typically 14" to 19")

**C. Bust/ Chest:** Measure the circumference by placing the measuring tape at the fullest part of the bust/chest. Wrap under the arms and back to the front. Make sure the measuring tape is parallel to the floor all around the body, and not drooping across the shoulder blades. (typically 28"-60")

**D. Bust/Chest (Expanded):** Take a full breath for this measurement, particularly important for singing roles

**E. Waist:** Locate the waist by bending at the side; where the crease forms is the natural waistline. Measure the circumference around the body at this position (typically 23"-50")

# COSTUME MEASUREMENT INSTRUCTIONS

**F. Waist (Expanded):** Take a full breath for this measurement, particularly important for singing roles

**G. Full hip:** Locate the fullest part of the buttocks and measure the circumference around the body. Make sure measuring tape is parallel to the floor all around the body (typically 30" to 65")

**H. Full hip @:** Measure from the side waist to the position of the Full hip measurement (typically <10")

**I. Center back neck to wrist (Bent arm):** Bend the arm at 90 degrees, as though reading a wrist watch. Measure from base of neck to tip of shoulder bone, down the bent arm to wrist bone (typically 32"-38")

**J. Side waist to knee:** Measure along the side of the body, from waist to knee (typically <35")

**K. Side waist to ankle:** Measure along the side of the body, from waist to ankle (typically <50")

**L. Side waist to desired hem:** Measure along the side of the body, from waist to desired hem

**M. Inseam to knee:** Measure along the inside of the leg, from crotch to knee (typically <30")

**N. Inseam to ankle:** Measure along the inside of the leg, from crotch to ankle (typically <45")

**O. Inseam to desired hem:** Measure along the inside of the leg, from crotch to desired hem
